

# Adam Smiths Library: A Supplement to Bonars Catalogue with a Checklist of the whole Library

Bonars Catalogue of Adam Smiths Library was originally published at the end of the nineteenth century; and a new and enlarged edition in 1932. Dr Mizutas researches have now added substantially to the total number of books known to have been in Adam Smiths library, as well as adding information about many of those originally catalogued by Bonar. The present supplement records all this additional material, and provides as well a general check list and index to the catalogue as a whole.
