

## Dinosaurs (DK Revealed)

A journey through the mesozoic era the time of the dinosaurs aimed at children and the general family reference market. The book is divided into four main subject areas, each led by an acetate spread that transports the reader into a particular scene and topic. The acetate spreads focus in on a particular story or example, while the follow-up spreads develop the themes, introduced by these acetates, in greater detail. Peel back the layers to discover the world of dinosaurs. See an Allosaurus hunting its prey or a baby Troodon dinosaur hatching from its egg.
