

The Great Carp Escape

Tadpoles, clams, and minnows! For siblings Beth and Paul, growing up on a lake is fun... until they're startled by a fishy find along the shoreline. When they discover the scaly, moustached carp, they become afraid. Seasons pass, and Beth and Paul avoid the swampy reeds at all costs until a flood brings about a life-or-death situation for the creepy looking carp, right in their own backyard! With guidance from their father, will Beth and Paul be able to overcome their apprehensions about the carp and help save them before it's too late? Acceptance of all of God's creatures beautifully portrayed in this delightful story! Henry K. Ripplinger, Bestselling Author, Pewter Angels. The Great Carp Escape truly captures the magic between children and nature. The story paints a beautiful picture of how all creatures on earth are God-given and shows how compassion shouldn't be based on popularity or defined beauty. This delightful and touching story carries such an important message of acceptance and simply joy. A pleasure to read and surely a popular addition to any child's home library.
