

## Rickys Christmas Tree

Ricky is wishing for a Christmas tree to light up his family's house, but Dad has been too busy until today. Dad tries to pick out the first tree they come across at the market, but Ricky convinces him to buy the biggest tree they can find instead. While they're trying to tie it onto their sled, the rope snaps and they tumble backward into the snow. Rather than getting angry, Dad starts a snowball fight with Ricky, and as they play together, Dad is reminded how much fun winter can be. A touching story about the strength of a bond between father and son, this colorful book featuring the lovable Ricky delivers an important message about what really matters during the holidays.
