

Challenges in Tourism Research (Aspects of Tourism)

In this volume leading experts from different disciplines and diverse geographic regions discuss fundamental, often controversial topics in the field of tourism studies. The book attempts to understand, identify and analyse some of the perennial problems and challenges encountered by tourism researchers. The debates include topics such as the concept of the tourist, the long-term sustainability of tourism development, the growth of volunteer tourism and the vulnerability of tourism. Bringing together the collective wisdom of 37 renowned tourism scholars in a unique format, this is an important text for undergraduate and postgraduate students, tourism researchers and industry professionals.
