

Everyones Guide to Online Stock Market Investing: The Definitive 12-day Guide

The Online Share Buyers FlexiSystem described in this book is a proven way to make money from online investing on the stock market. Developed by City professionals, this system is completely up to date. In good times or bad, it is recommended for beginners and experienced investors alike. In 12 easy modules, you will discover all that you need to know to buy stocks at bargain prices, and then sell them at a profit. First, you will learn how to select the best broker for your purposes. You will get to grips with trading. If you love penny shares, this book gives you guidance on how to make serious money in this field. Other skills covered include how to: use spread-betting for speculating and selling short; make money in falling markets using options, and other derivatives; use the charts to time your share deals; ask your broker the right questions and distinguish the good advice from the bad; buy defensive stocks when prices are low; use ratio analysis to detect the best investments, and discover all the creative accounting tricks; and make money out of market crashes - yes, it is possible if you know how. At last you should be able to make your own investment decisions, and not rely on your brokers. This guide sets you up as your own dynamic researcher on the Internet. Find the few Web sites that can really help you using the resource list included at the end of the guide.
